EDITORIAL

The true value of the yearbook lies not in the present, but in the future. Its purpose, I believe, is to reflect the life of the school. In this respect, its value comes forth when we have entered the adult world. The yearbook will then bring back to us pleasant recollections of our scholastic years.

On thinking of how these years have been our guide for life, we may then be able to look backward with satisfaction and forward with faith.

VALEDICTORY ADDRESS

On behalf of the 1963 Graduating Class, I would like to take this opportunity to extend our heartfelt thanks for the tribute and good wishes extended to us by the class of 1964. We in turn, wish to challenge you to uphold the athletic, academic and moral standards of this our collegiate.

With mixed emotions we leave tonight; with a feeling of achievement, yet regret; gratitude, yet sadness, but primarily with hope and anticipation. We have achieved the first major steps in our formal education and preparation for our careers in the adult world of tomorrow. We now stand on the threshold of a new phase. Ahead lies only darkness, our future. Regretfully we realize that we can only glance back down the steps which we have just climbed. Never again will we be able to grasp the joys and sorrows of the past. Now we must step into the uncertainty of our unknown future.

As we pause at the door we suddenly recognize how very grateful we really should be for the sacrifices made for us by others, especially those made by our parents and teachers. We may often have been unconscious of your efforts and may have appeared ungrateful. All too often we have accepted your precious time and efforts as a matter of course. Thus, at this time, I would like to thank you, our patient parents and teachers, for aiding us to reach this step in our lives. Throughout our schooling we have been fortunate in having had the best that could be provided in the way of professional instruction and appropriate facilities. Through many a turbulent or depressing experience we have been guided by the understanding of our parents. This I am sure we all recognize and appreciate. Without you our success would have been impossible.

On this, the last occasion that we will be together as a group, we naturally remember the chain of friends which we have formed over the past years. Tonight, with high hopes and the greatest anticipation, we see each other entering into separate professions — some into the fields of Science and Medicine, others into commercial or teaching careers. These will lead into new societies and new groups of friends.

However, the old chain will never be completely dissolved, for we will always remember the times we shared together; the time our team almost won the football championship, the teamwork that went into school parties and plays, and the mischief in which every class indulges and specializes. Yes, I'm sure we will always remember too, the homework our favorite teachers gave us, and the purple and gold of Morden Collegiate.

All this is past and only the future remains. We know not what lies ahead for us, only that the best thing we can do to keep ourselves afloat in the high tide of civilization is to forge ahead with determination and zeal. As young adults we must obtain the training and knowledge which will mold us into the independent citizens of tomorrow. We must be prepared to accept the burdens of adult life and parenthood for we are the basis of the next generation.

Unlike our forefathers who enjoyed a much simpler life, we are intering a modern society's complex web. There was a time when a young man needed only to learn his father's trade by working with him; a baker's son learned by kneading his father's bread; similarly a shoemaker's, or tailor's son eventually earned his livelihood by settling down to the profession into which he was born. A young woman was not expected to remain in school for more than a few years since her duties as a housewife were learned at home. She did not need to know what was going on politically in her community or country as her opinion was not considered worth a vote. The 20th century has been called the "woman's age", for today we have many rights which were once considered strictly male privileges. All professions are now open to us. This can be noted in such fields as medicine, dentistry, ministry and politics. The last of which brings to mind such noble examples as the robut Mayor Charlotte Whitten and the present Health Minister Judy LaMarsh.

With the progress of science and society, there are more and more demands being placed on the individual. It is absolutely necessary for every girl and boy to have a clear understanding of the functioning of the government of his country and to be trained for some chosen career. Then he will not have to look back like Abel Meiany and say, "I have seen myself as a good machine which life had never used." Not only must he be trained but he must be specialized. A man can no longer be a general farmer or doctor, but he must be specialized in his field.

Within everyone of us there are the abilities and talents, whether academic, technical, artistic or social which will make our lives worthwhile. These can be used in improving mankind. However, we need the determination to apply them to the goals set by ourselves.

In closing, I would like to quote a poem from a speech made by the late King George VI. "I said to the man who stood at the gate of the year: Give me light that I may tread safely into the unkown,
And he replied: go out into the darkness and put your hand into the hand of God,
That shall be to you better than light and safer than the known way.

—JOY REICHERT.

PRINCIPAL'S MESSAGE

Once again, I am pleased to have an opportunity to speak to all of you in this, the 1963-64 edition of the yearbook. My congratulations to those teachers and students who have worked so hard to make it possible.

It is the spring of the year, and we are all faced with certain immediate problems, and some that are much more far reaching. Besides the prospect of a set of examinations, some of you must think of further education and training, while some will enter directly into some kind of employment. To these people go my best wishes for success and happiness, and also my hope that the struggle which you will all endure will cause learning and growth. The world you go into is complex, filled with detours and temptations, but it will be the grappling with these temptations that will cause, either the development of a real person, or a drifting shell. I sincerely hope that you will find the courage, endurance, and faith to cope with life and that your beliefs will cause you to enter into the struggle, rather than sit on the sidelines.

INSPECTOR'S MESSAGE

MR. J. CHALATURNYK, Inspector of Schools

It gives me great pleasure to have the privilege of contributing a brief message for your Year Book.

Every individual, irrespective of social position, age, sex, race, creed, or religion, seeks after happiness—each finding it in different measure in different things. Often this quest is long and tedious; requiring a great deal of preparation, groping, experimenting, participating in various activities—some of which result in feelings of having achieved success and others in failures and frustration. But such is life—it can't be, shall we say, all strawberries and cream, a joy everpresent. We have to take the bad with the good. If there was no bad how would we recognize that which is good and desirable?

Regularly and frequently it is wise to pause in retrospect and introspect in order to evaluate one's many ideas, ideals, and activities. Some of your activities have been primarily for recreational purposes, some for educational, and some for both. Your Year Book, which is a tribute to the student body, requiring much planning and work is also a source of enjoyment and satisfaction. The pleasures that each will derive from it will increase as the years pass. As you enter fields of occupations, vocations, and professions for which you are preparing and will continue to improve your qualifications you will realize more and more the value of the things you were required to do—things which then were a drudgery. You may even remark—I wish I had done those things which I was advised not to do.

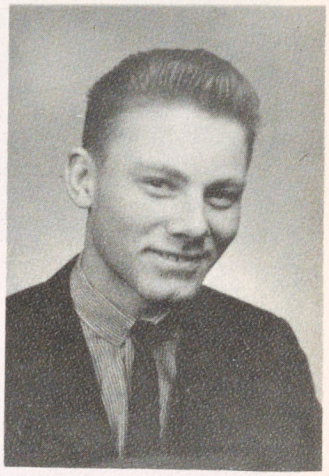

I have great faith in the Youth of our Great Country. You have inimitable opportunity for SUCCESS. Successful in terms of Henry Ford who said, "Success is a matter of adjusting one's efforts to obstacles and one's abilities to a service needed by others. Most people think of it in terms of getting. Success Begins in Terms of Giving."

May God bless you with illimitable opportunities to give generously of the best that is in you to make your Alma Mater and your Community one of the best in the country.

Sincerely,

John Chalaturnyk

PRESIDENT'S MESSAGE

PRESIDENT FLOYD EVENSON

Being president it seems only natural that this year should be the most meaningful of all the years that I have spent at Morden Collegiate.

I would like to take this opportunity to give my sincere thanks to the students for giving me the honour of acting as their president.

This year we have been fortunate in having one of the finest Student Councils ever to arise from our school. Due to their initiative and hard work we have experienced a most successful year in all our activities. It has been a pleasure to work with both them and with our very co-operative teaching staff.

To my fellow graduates, who stand upon the threshold of a more complex life, I would like to wish the best of luck.

As I close this message, I know that someday we, the graduates, will look back upon our past and it will be then when we fully realize what Morden Collegiate has given us.

CHORAL CONCERT

CONDUCTED BY: MR. J. KREIGER

On the last Friday before Christmas holidays the junior and senior choirs under the able direction of Mr. J. H. Krieger put on a Christmas Concert for interested parents and other adults. There was a guest orchestra and also a play written and directed by Mr. P. Sigurdson. It was put on by the teachers. The auditorium was decorated in Christmas motif. The decorations were donated by Mrs. Olga Friesen. The concert was a tremendous success.

ISCF

I.S.C.F. meetings are held every Friday noon, 12:35 to 1:10. The members of the executive this year are: President, Nick Hiebert; Vice-President, Bert Appelt; Secretary-treasurer and Publicity, Lydia Klassen; Prayer Convenor, Carol Voth; Mission Convenor, Ray Peters; Social Convenor, Gladys Hildebrand and Carol Hoeppner; Gr. IX Rep., Peter Hoeppner; Gr. X, Delorne Dreger.

Dr. Unruh, our sponsor, has given us much helpful advice and guidance throughout the year and we are very grateful to him for all the time and effort he spent in helping this club. Mr. Bergan is our representative from the High School Staff.

Club prayer meetings are held every Tuesday morning and at noon at Carol Voth's home. This year's club meetings have been varied, featuring such as group Bible studies, films, "Buzz" groups, Symbol studies, panel discussions, "personal gems", special speakers and singspirations. The meetings have been well attended with an average of 40-45 students coming every week. The club has had several parties this year, an "Olympic" party, a wiener roast and a tobogganing party. Most important, from our studies of the Bible and Christianity we have gained spiritually.

TEEN CANTEEN

The highlight of our Saturday night social activities is our Teen Canteen which is held almost every Saturday night in the Legion Hall. It is comprised mainly of students from grades 8 to 12. We dance to popular records and usually have a good attendance. Each week parents of those attending are asked to chaperone the activities. The 1964 executive is: President, Doug Cram; Vice-President, Clint Pentland; Treasurer, Wenda White; Secretary, Sally-Anne Gillis. This is the sixth successful year the canteen has been in operation. The executive would like to extend their sincere thanks to all the kind parents who so willingly gave of their time to chaperone at canteen sessions and we would also like to thank the Morden Branch of the Canadian Legion for so kindly donating the hall for use each week. We hope to have another successful year and would encourage more to attend.

PARTIES

CHRISTMAS — Held on December 20. Had usual decorations, Santa Claus (Gus Bollenbach), lunch, and record hop.

HALLOWE'EN — Held on November 1st, it was the first party of the year. It consisted of games, lunch, and a record hop.

BONSPIEL DANCE — Record hop was held on the Friday night of the open bonspiel.

SKATING PARTY — Held on February 13. Sponsored by the student council. There were games, free skating, and a mocassin dance after.

INITIATION

The first successful event of this year was the initiation of the Freshies, new students and teachers. We gathered in the auditorium to choose our Freshie Queen, Alma Thiessen, and our King, Leonard Hamm. On the command of the seniors the Freshies lined up for the parade. Gathering on the school grounds, games were played, and various tasks were asked of the Freshie. Our overjoyous Freshies then entered the Hall of Horrors, going through the worst few minutes of their lives. Lunch was served, closing a very exciting day for everyone.

FAMOUS QUOTATIONS

MR. COOPER: "Have you heard about the wooden cow?"
MR. HEINRICHS: "Today, we will seek to understand . . ."
MR. FRIESEN: "You'll have to squeeze some out of your own hide; you can't squeeze it all out of mine."
MR. SIGURDSON: "I'd like to see the cast after assembly."

"REACH FOR THE TOP"

On January 10 Pat Carson and Clint Pentland of Morden Collegiate teamed up with Rita Krahn and Richard Epp of Winkler Collegiate to compete on the TV program "Reach for the Top." Mr. Siemens, Winkler, and Mr. Sigurdson, Morden, took them to Winnipeg to the CBC studios. They arrived at about 4 p.m. and immediately received a make-up job, which the boys "loved". From 5 to 6:15 they rehearsed in the recording studios. They then had a practise game, which Morden and Winkler won, but when it came to the final game they just weren't fast enough at pressing the buzzers. But it was a worthwhile trip. As they put it: "We had an absolutely fabulous time and met many interesting people. "We wouldn't have missed the experience for anything." What more can I say except that they were a credit to our school.

SCHOLARSHIP WINNERS

Winners of scholarships last fall were:

1. Clinton Pentland, Grade 11, School Board
2. Pat Carson, Grade 11, School Board
3. Lynn Southworth, Grade 11, Legion
4. Marilyn Skubovius, Gr. 9, School Board
5. David Putt, Kinsmen Scholarship, Manitoba Government Bursary
6. Philip Wiebe, Manitoba Gov. Bursary, Press, Radio Scholarship
7. Jenny Klassen, Grade 10, Rebecca
8. Joy Reichert, Hospital Aid

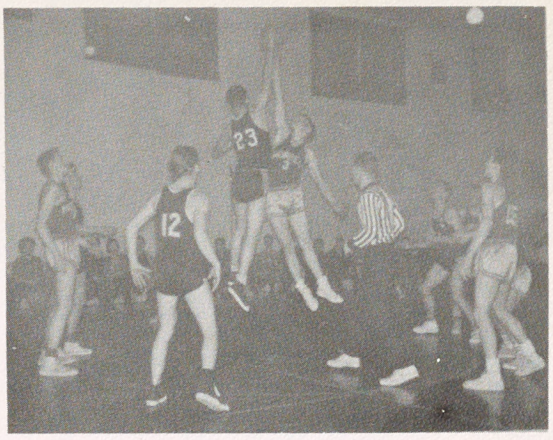

BUS TRIP

Winnipeg International Airport

One of the highlights of the past year was the Senior Class Outing. On December 5th, about 50 grade 12 students boarded a chartered bus headed for Winnipeg. Our first stop was the University of Manitoba. Here we toured the various buildings and ate lunch in a very crowded Student's Union Building. Our next stop was the Manitoba Institute of Technology. Here we had a glimpse into the many career opportunities we could choose, when we graduated. Next stop — the new Winnipeg International Airport. Here we wandered around at our leisure and relaxed in the comfort of the airport. Following this we had one hour free time. Then came the highlight of the trip — the Russian Circus. It was a chance in a lifetime, which we all thoroughly enjoyed for the perforance was both beautiful and expertly done. We of the grade 12 would like to thank those 3 teachers, Mr. Friesen, Mr. Weitzel and Mr. Sigurdson for so bravely putting up with us and being chaperones.
